PROFESSIONAL SUMMARY

Motivated and detail-oriented Information Technology student pursuing a Bachelor of Technology with a strong foundation in Java, SQL, HTML, CSS, and JavaScript. Skilled in object-oriented programming, web development, and problem-solving with hands-on experience in developing academic projects and applications. Seeking an opportunity to begin a career as a Java Full Stack Developer and contribute technical expertise in a dynamic software development environment.

PROJECTS

- **EduAdapt : An Adaptive Learning Platform Using MERN Stack**
Built EduAdapt, a MERN stack-based adaptive learning platform featuring personalized course recommendations, progress tracking, and quiz-driven learning workflows. Designed scalable full stack modules with interactive dashboards, authentication, and analytics to enhance learner engagement and user experience.
- **Bus Ticket Booking System | Web Application (HTML, CSS, JavaScript, PHP, MySQL)**
Built a web-based bus ticket booking application with real-time seat availability and secure payment integration. Implemented booking confirmation features and automated ticket management to enhance user experience and reduce manual processing.
- **Budget Calculator | Java (Swing)**
Developed a desktop-based financial management application using Java Swing. Enabled users to record, monitor, and analyze income and expenses through an interactive and user-friendly interface.
